# *Kaiser Permanente's Sustainable Energy Programs*

# Our Commitment

“Kaiser Permanente is committed to creating healthy communities, and it’s critical we work to reduce the impact of our operations on the environment. We all take pride in our focus on prevention at Kaiser Permanente, and that includes taking a stand to reduce greenhouse gas emissions.”

— Bernard. J. Tyson, Chairman and CEO

# 2025 Environmental Stewardship Goals

## Climate Action

Become “carbon net positive” by buying enough clean energy and carbon offsets to remove more greenhouse gases from the atmosphere than we emit.

## Sustainable Food

Buy all of our food locally or from farms and producers that use sustainable practices, including using antibiotics responsibly.

## Waste Reduction

Recycle, reuse or compost 100% of our non-hazardous waste.

## Water Conservation

Reduce the amount of water we use by 25% per square foot of buildings.

## Safer Products

Increase our purchase of products and materials that meet environmental standards to 50%.

## Sustaining Sustainability

Meet international standards for environmental management at all of our hospitals.

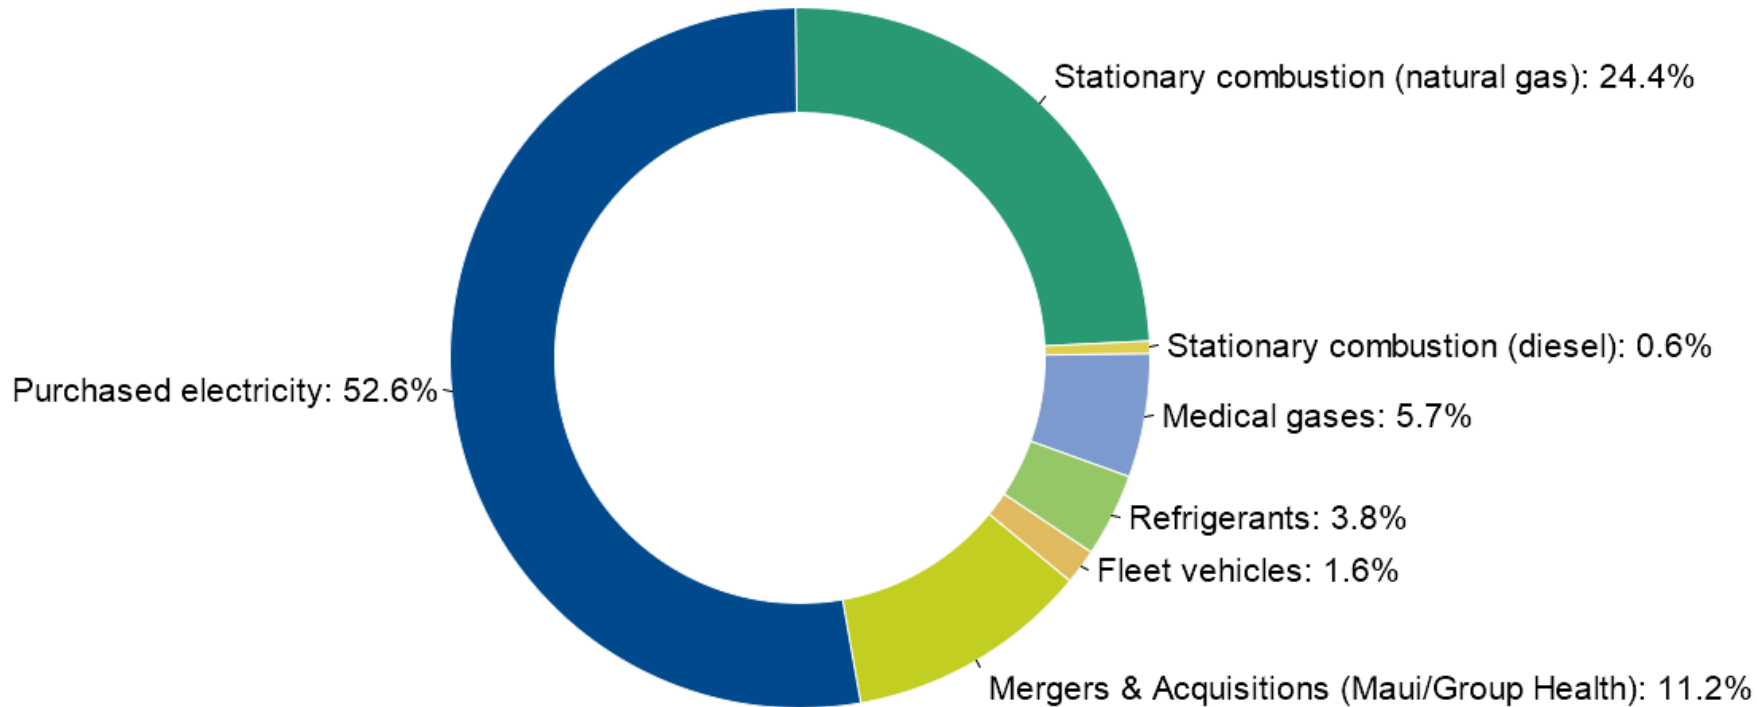

## Collaboration

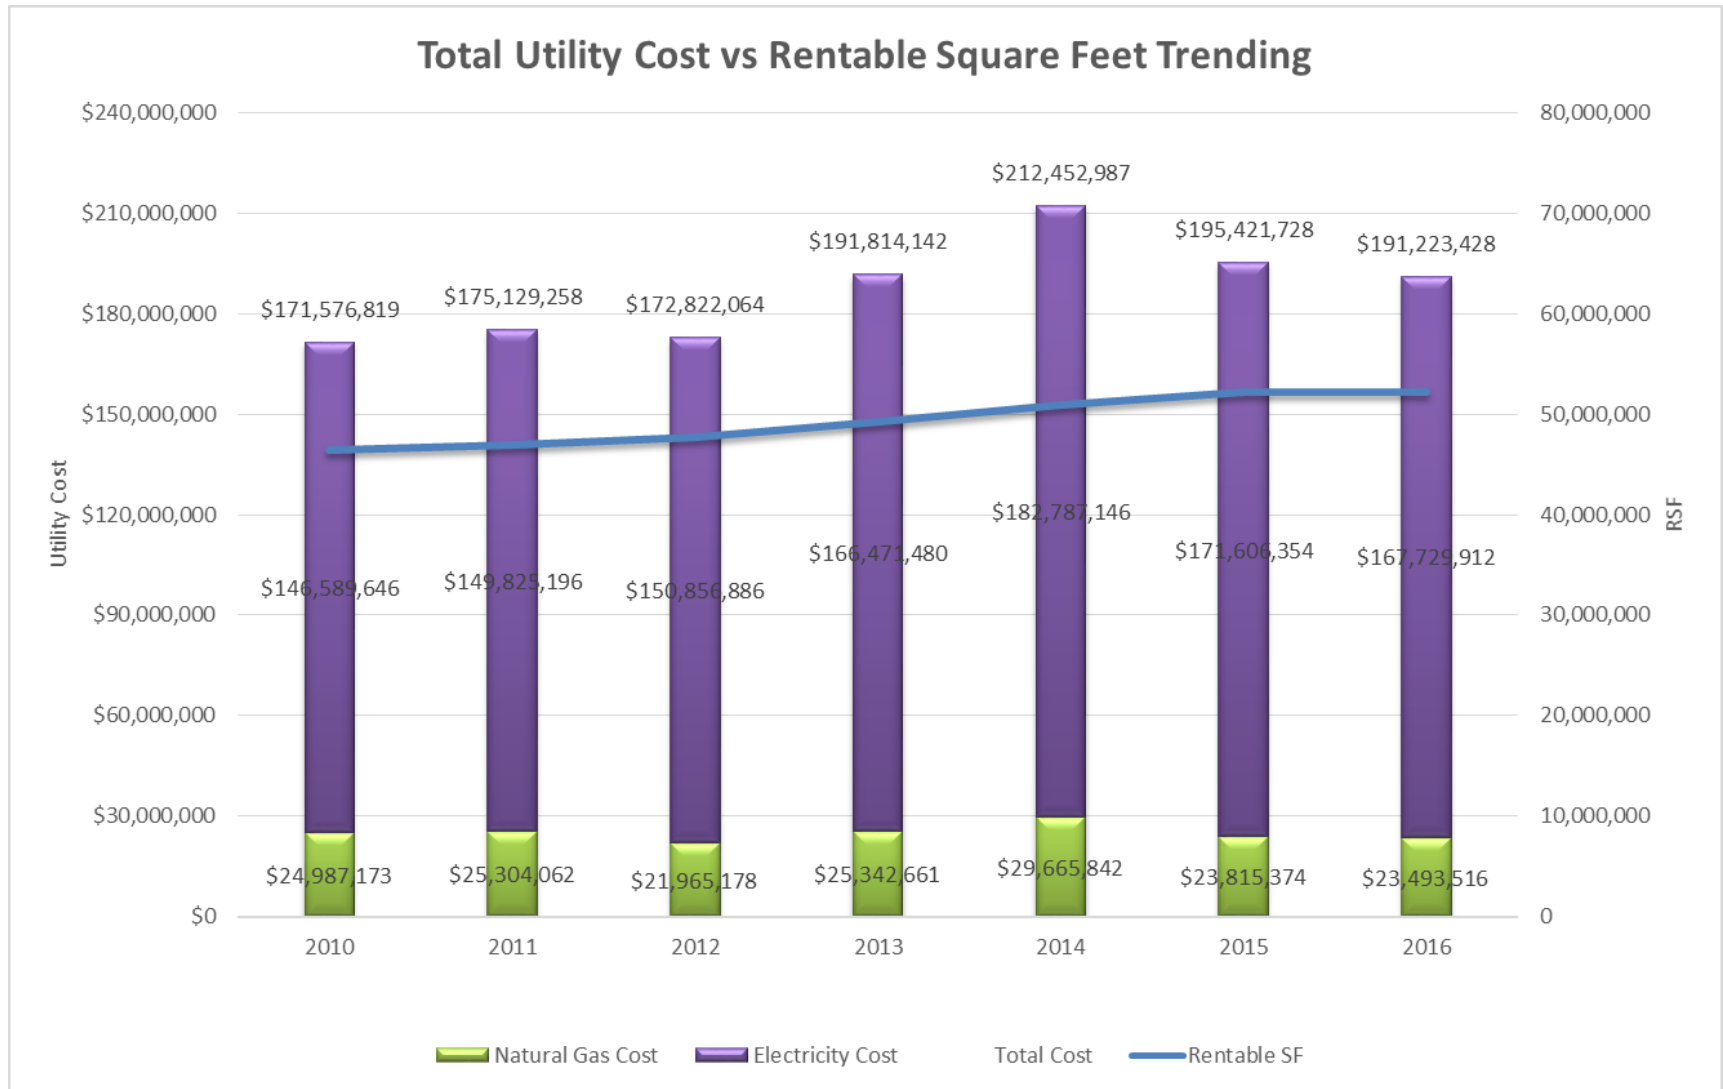

Pursue new collaborations to reduce environmental risks to foodsheds, watersheds and air basins supplying our communities.

# If we take no additional action...

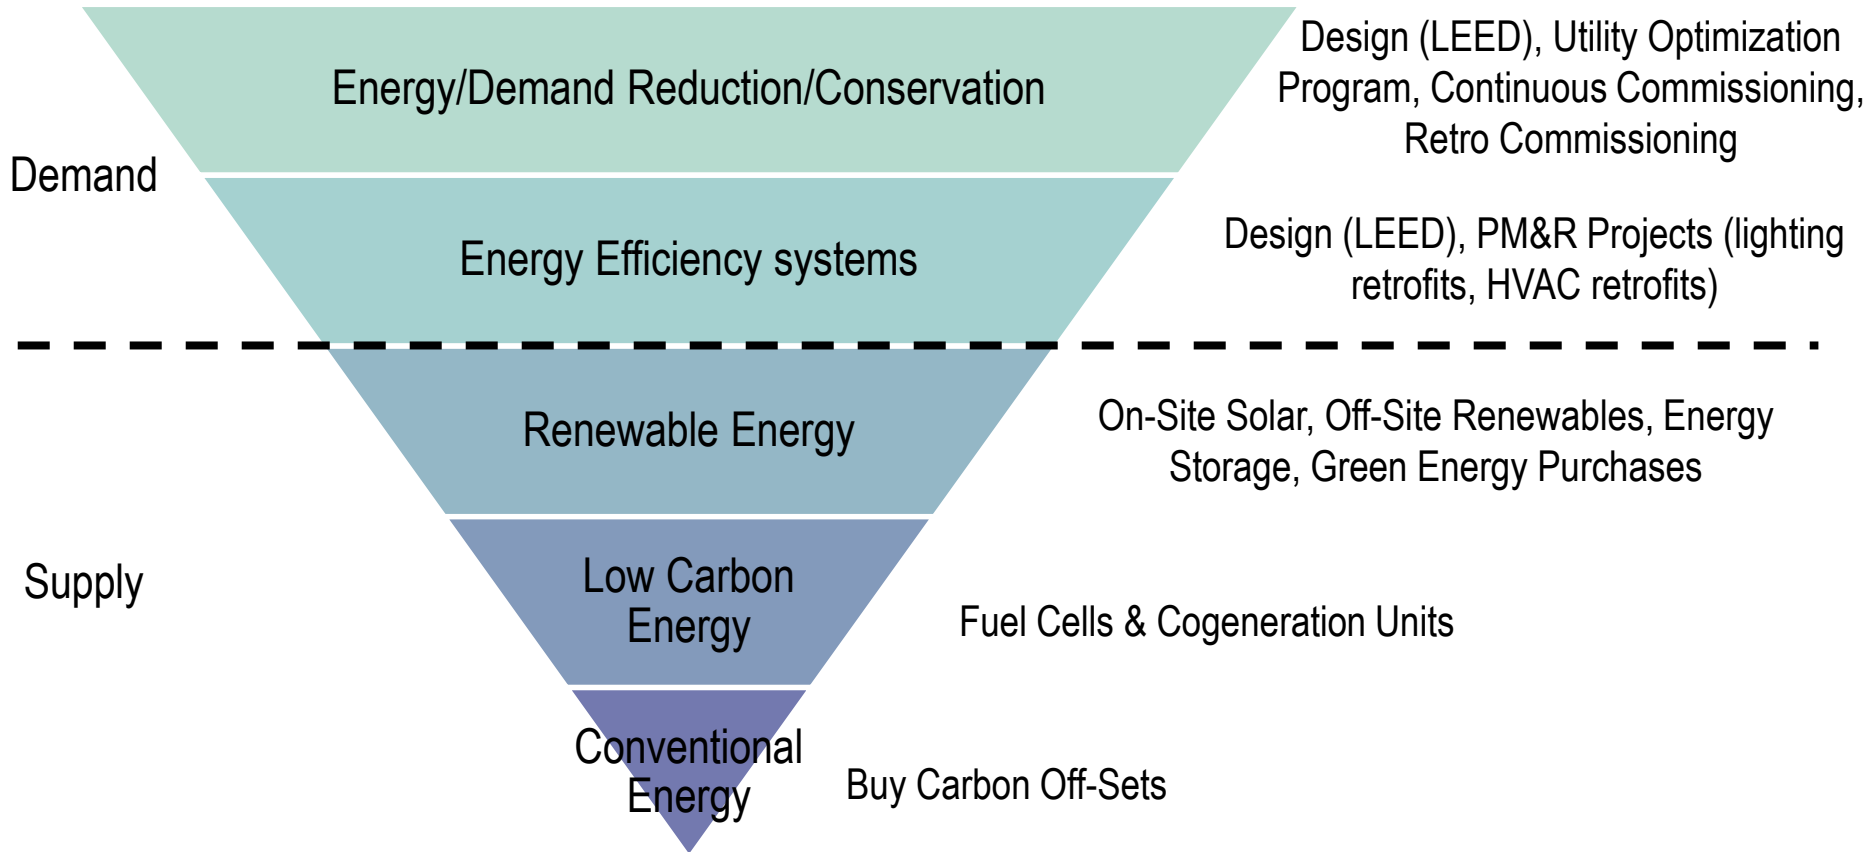

Net GHG emissions (Scopes 1 and 2) forecast for KP in 2020: 687,610 metric tons CO<sub>2</sub>e
