

Walk and Roll Rodeo

Patterson Elementary School

On January 25, 2019, the City of Hillsboro's Safe Routes to School program hosted our first Walk and Roll Rodeo at Patterson Elementary School!

WashCo Bikes and Tom Sargent Safety Center (OHSU Doernbecker Hospital) joined City of Hillsboro staff to provide a fun hour of activities where students learned about bike and pedestrian safety. Students rode their bikes through a challenge course, walked safely across a demonstration intersection, and went for an on-campus guided ride.

The City of Hillsboro looks forward to working with the Patterson Elementary community to build their Safe Routes to School program.
