

How to read your bill

1. This is the address where service is provided.
2. Your account number appears at the top of the statement for easy reference.
3. The date your bill is emailed out.
4. This section provides a quick summary of your current billing and payment information.

The amount due from your previous bill is listed first, followed by any activity since your last billing statement, including payments, charges, adjustments, applicable fees and taxes. Together, these create your total amount due.

5. Find your current amount due and due date here.
6. Check the left side of your bill each month for bill-related messages and community updates.
7. A detailed breakdown of your amount due can be found in the billing details section on page 2.
