

# BLAST Pedestrian Safety Training

City Safe Routes to School (SRTS) staff hosted a pedestrian and bus safety education training for Bringing Leadership, Arts, & Sports Together (BLAST) after school program staff on February 3, 2020. The training provided seventeen BLAST staff members with lesson plans consisting of four lessons for first through third graders and five lessons for fourth through sixth graders. After walking through the lesson plans, BLAST staff had the opportunity to practice many of the activities described in the lessons.

The BLAST program staff intended to teach these lessons in early spring 2020 to prepare their students for May Walk and Roll to School Day. Those lessons were delayed due to COVID-19.
